## SUMMARY

Frontend Developer with 1.8 years of experience building responsive and scalable web applications using **React.js, Next.js, Redux, Context API, and React Hooks**. Skilled in REST API integration, authentication, Git workflows, and performance optimization with a focus on reusable components and modern UI/UX.

## SKILLS

**Programming Languages** JavaScript ES6+, JSX, HTML5, CSS3  
**Frameworks and Libraries** React.js, Next.js, Redux, Router, Context API, Tailwind CSS, Bootstrap, Ant Design  
**Development Tools** Git, GitHub, Babel, Webpack, Postman, Yarn, NPM  
**Web Integration** REST API, Axios, Token-based Auth  
**Core Competencies** Responsive Web Design, Web Development, Cross-Browser Compatibility

## PROFESSIONAL EXPERIENCE

**Frontend Developer** May '24 — Present  
Rugaa Chennai

- Developed scalable and maintainable single-page applications (SPAs) using **React.js, Next.js, Redux, Context API, and React Hooks** for efficient state management.
- Built responsive and user-friendly UIs with **Tailwind CSS, Bootstrap, and Ant Design**, ensuring cross-browser compatibility and pixel-perfect design.
- Integrated REST APIs using **Axios**, enabling dynamic data flow and secure communication with **token-based authentication**.
- Implemented **Next.js** features like **server-side rendering (SSR)**, **static site generation (SSG)**, **dynamic routing**, and **SEO** optimization to improve application performance and discoverability.
- Enhanced application performance through **lazy loading**, **code splitting**, and **React memoization** techniques. Utilized version control systems like Git and GitHub for efficient team collaboration and codebase management.
- Worked with tools like **Webpack, Babel, Yarn**, and **Postman** to streamline the development workflow and ensure build optimization.

## PROJECTS

**Lease Portfolio 365 (React.js, Redux, Axios)** [Link](#) May '24 — Present

- Developed a responsive frontend application for managing real estate lease portfolios using **React.js, Next.js, Redux, and React Router**.
- Implemented **dynamic data filtering**, **REST API integration**, and **schedule tracking** features.
- Focused on reusable components and enhanced performance using **React Hooks**, **lazy loading**, and **server-side rendering (SSR)** with **Next.js**.

**Visaka E-Kart (Next.js, Redux Toolkit, Axios, Ant Design)** [Link](#) Jul — Present

- Built a modern **e-commerce frontend** using **React.js, Next.js** with **Redux Toolkit** and **Ant Design**, ensuring mobile-first **responsive design**.
- Implemented core features like product catalog, shopping cart, and checkout process. Integrated secure APIs and optimized user experience with component-level responsiveness.
- Leveraged **Next.js** static site generation (**SSG**) and dynamic routing for faster load times and better **SEO**.

## EDUCATIONAL BACKGROUND

**BE**, KS Rangasamy College of Technology (GPA: 78) Jul '13 — Apr '17  
Namakkal

**HSC**, Government Boys Higher Secondary School (GPA: 90.75) Jun '12 — Apr '13  
Namakkal

**SSLC**, SPB High School (GPA: 93.60) Jun '10 — Apr '11  
Namakkal

## ACHIEVEMENTS

**Excellence in Frontend Development**  
Successfully completed a **company branding project** within 6 months, delivering a modern and cohesive digital presence. Developed a **responsive website using React.js and Next.js** to showcase the company's products and services. Implemented contact forms, optimized UI/UX, and leveraged **Next.js features (SSR & SSG)** for scalability, **SEO** and seamless performance.
